## Cordless Phones (continued)

### Snom Range

**Snom M9**

R1,710.00 (R1,500.00+VAT)

Up to nine handsets per base and up to four calls at once.  
100+ hours of standby time.  
Intercom, alarm and calendar functions.  
Phone Book (170 Names).  
Missed, Dialed and Received Call Lists.  
Hands free speaker phone.  
Range – 50m indoors; 300m outdoors.  
Illuminated colour display.  
Automatic handset roaming between up to four bases.  
Ideal for use in switchboard environments.

Note: The Snom M9 includes a base and one handset.

**Snom M9 Additional Handset**

R798.00 (R700.00+VAT)

Additional handset for the Snom M9.

Note: This cannot operate on its own; it requires a Snom M9 base.

## Fax / Phone Adapters

**LinkSys SPA2102**

R684.00 (R600.00+VAT)

Two ports for analogue phones or fax machines.  
Each port associates with a different phone number.  
Two ethernet ports.  
G.711 A-law and T.38 Fax transmission support.

## Desktop Phones

### Yealink Range

- SIP-T20P** R684.00 (R600.00+VAT) [left]  
**SIP-T22P** R798.00 (R700.00+VAT) [middle-left]  
**SIP-T26P** R1,140.00 (R1,000.00+VAT) [middle-right]  
**SIP-T28P** R1,368.00 (R1,200.00+VAT) [right]

- SIP-T20P Entry level IP Phone. 2 lines, 2x15 character display.  
 SIP-T22P Professional IP Phone. 3 lines, 132x64 graphic display.  
 SIP-T26P Advanced IP Phone. 3 lines, 132x64 graphic display, 10 BLF\* keys.  
 SIP-T28P Executive IP Phone. 6 lines, 320x160 graphic display, 10 BLF\* keys.

All models have two Ethernet ports and can be powered either conventionally or using a PoE switch.

- EXP39** - R1,083.00 (R950.00+VAT)  
 Reception attendant console module for SIP-T26P and SIP-T28P. 20 physical keys, 39 virtual keys.

- YHS32** - R285.00 (R250.00+VAT)  
 Professional call centre headset.

\* The BLF (Busy Lamp Feature) keys on the SIP-T26P and SIP-T28P phones light up when other extensions are busy on the phone, allowing you to see if another person is on the phone before transferring a call to them. The keys facilitate quicker and easier call transfers. One or more EXP39 modules can be added if more than 10 extensions need to be monitored. These phones are recommended for use with switchboards, either as a reception or regular phone.

## Desktop Phones (continued)

## Notes

Certain other phones, phone adapters, ADSL/3G gateways and related devices may be supplied on request. Please contact us should you have a specific query.

This pricing is effective 1 November 2011 and is subject to change without notice.

Supply of all items is subject to stock availability.

Errors and omissions excluded.

Delivery is generally not available to farms or sites without a clear and identifiable street address. In such instances, please arrange for delivery to the nearest proper street address or post office.

## Subscriber Purchases

Free delivery to most South African cities and towns when ordered with Switch Telecom VoIP service(s).  
No minimum order value.

All orders above R5,000 and must be paid for in full before goods will be dispatched.

Credit-approved clients may order on account provided the order does not exceed R5,000.

Clients who have not been credit-approved must pay in full before goods will be dispatched.

## Non-subscriber Purchases

Switch Telecom's phones are intended for use with the Switch Telecom network. Pricing is accordingly highly discounted and the range includes SIP (VoIP) compliant phones only. Where the phones are ordered by a non-subscriber to our services the following conditions shall apply:

- Minimum order value: R5,000.00.
- Delivery charge: R100.00 (R87.72+VAT) plus R50.00 (R43.86+VAT) per item.
- Terms: EFT payment must have cleared before goods will be released.
