- in respect of individual subscribers, any person cohabiting with the subscriber at their designated physical address; and
- in respect of juristic subscribers any employee, director, trustee or principal of the subscriber and/or any subsidiaries of the subscriber that the subscriber has controlling interest in.

Restrictions Applicable to Unlimited Services:

1. Unlimited VoIP Line Lite is restricted to one personal device (VoIP phone or softphone) only and may not be used with switchboards, gateways, trunking systems or any other device intended for sharing of the service.
2. Unlimited VoIP Line Lite does not include any international destinations in the package.
3. Unlimited VoIP Line Premium may be used with up to three personal devices (VoIP phones or softphones) and may not be used with switchboards, gateways, trunking systems or any other device intended for sharing of the service.
4. Outbound call centres are excluded from the Unlimited service.

6. SWITCH reserves the right to monitor usage for abuse and will cease providing the Unlimited VoIP service if abuse is detected.

Note:

- If CLIENT has subscribed for a Toll-Free (0800) number, calls received on the Toll-Free service will remain separate and billable in accordance with the applicable Toll-Free tariffs; such calls will not form part of the Unlimited VoIP offering.
- Calls to all South African networks are included in the Unlimited VoIP service.
- A section of international destinations are also included (excluding the “Lite” service). A list of these international destinations is available on the SWITCH website and may change from time to time.
